

Winton Road

6/01/2009

The northbound curb lane of Winton Rd. is currently closed from Galbraith Rd north to Cross County Highway.

The intersection of Cloverview Ave. and Winton Rd. has the center lanes closed. This is necessary so that the existing pavement may be removed and replaced. All left turns will be prohibited through the intersection. It is anticipated that work in the intersection should be completed by Friday evening June 5th.

The westbound curb lane of Galbraith Rd remains closed during working hours for construction of the retaining wall, from Beta west to Winton Rd. This closure will continue throughout the week.

Curb, sidewalk, and drive apron work continues on the east side of Winton Rd, from Cross County north to Reynard.

Crews are preparing for the installation of temporary traffic signals in the Winton Rd./ Galbraith Rd. intersection as well as performing excavation on the northeast corner for the proposed widening.
