## *Letter from the Director*

On Friday morning, August 10th, it was announced by JFS that the Maintenance and Other Support Services provided to support the core mission of Job and Family Services will be transferred to County Facilities. There will be a 60 day period in which it will be determined how our department will be structured to provide these services to that organization.

Diana Supe and Mike Puckett will be responsible for a smooth transfer of responsibilities and personnel into our organization. There will be some organizational changes over the next 60 days and you will be informed of these as they occur.

It was also announced that the JFS Personnel Section will be transferred to the County Personnel Department and report to Gary Berger.

*Ralph W. Linne*

*Director of County Facilities*
