HUMAN PERFORMANCE

October 22, 2015

Hamilton County Board of Commissioners  
Attention: Commissioner Todd Portune  
138 East Court Street Room 603  
Cincinnati, Ohio 45202

Dear Mr. Portune:

Thank you for taking time out of your schedule yesterday to visit Real Human Performance (RHP). The RHP team is grateful for the opportunity to share recent events and facts with you one-on-one.

At face value, RHP team joins the majority of the community in relaying our non-support for a major construction project at Plainville/Bramble. That said, if project viability, prioritization and necessity is determined via a transparent and fact-based process, RHP will support the project in the name of economic development and safety as the primary motivators.

Regardless of our position on the intersection project, we wanted to provide a prompt response to your request for information on roundabout safety statistics. Please see below:

Removal after Accident Increase:
