

## CFHS FUNDED PROVIDERS AND PROGRAMS

- **The Division of Adolescent Medicine at Cincinnati Children's Hospital Medical Center** works with adolescents in community based organizations in Hamilton County including schools, recreation centers, libraries, and juvenile justice facilities to provide obesity prevention education. The goals of this programming are to increase healthy food choices and physical activity. The Division also provides trainings for front line providers in the recognition, assessment, and referral resources for adolescents with mental health issues. Contact person: Paula Braverman, MD; Director of Community Programs in the Division of Adolescent Medicine Email: [Paula.Braverman@cchmc.org](mailto:Paula.Braverman@cchmc.org)
- **Good Samaritan Hospital** provides the CAMP Program, A Perinatal Program for chemically dependent women. Program provides quality, respectful healthcare to this unique population. Care for low-risk patients will be provided by a nurse midwife. High-risk patients will be seen in The Faculty Medical Center by a Maternal-Fetal Medicine physician. Additional staff includes nurse case manager, social worker, nurse practitioner, and dietician. Referrals can be made by calling 513-872-5127 to speak to the nurse case manager. Patients may also self-refer. Contact person: Meg James: email [meg\\_james@trihealth.com](mailto:meg_james@trihealth.com)
- **Healthy Moms and Babes Mobile Programs** Health Education/Health Promotion Program  
Two mobile units travel to 18 neighborhood sites every two weeks providing free and confidential services to identify and assist women and children with access to services and health information. The goal of the program is the reduction of infant mortality and the enhancement of health and positive parenting.  
**Services provided:** Pregnancy screening, information and referral to medical care and social services, education for prenatal, post-natal, infant care, growth and development, children's health, adolescent health, women's health. The neighborhood sites are: **Hamilton County:** Fay Apartments, North Fairmount, Millvale, Northside, Lower Price Hill, East Price Hill, Mt. Airy, Winton Terrace (2 sites), West End, Avondale, Norwood, Forest Park, Springdale (2 sites).  
**Population Served:** Low income, medically underserved women and children  
**Intake Criteria:** All people who access the van are served. Services are free and confidential. No appointment necessary, walk-ins welcome.
- **Healthy Moms and Babes CFHS-CD and OIMRI:**  
Following the Community Health Worker model, these Healthy Moms and Babes Outreach Programs provide home visiting support, assistance getting to prenatal and well child appointments, assistance in obtaining medical and social services, client advocacy, parenting, child development and health education, child developmental screenings and support in achieving goals toward self sufficiency. We strive to improve birth outcomes, increase early entry into prenatal care, and increase access and compliance with routine infant and well child care.

These services are provided to high risk African American pregnant women and pregnant women who are using or abusing chemical substances.

- **West End Health Clinic** provides the Get Lit program for Overweight Children. The program provides assessment, program direction, and nutrition and exercise instructors. It is linked with community schools. The Women's Health program offers incentives to female patients who received PAP exams and Mammograms. The purpose of the program is to decrease the breast and cervical cancer rates for the West End Community. Contact person: Chris Braun; email [cbraun@wehc.org](mailto:cbraun@wehc.org)
- **Planned Parenthood Southwest Ohio Region** has been providing reproductive healthcare services to men and women since 1929. We provide family planning services provided under the Child and Family Services project which includes pregnancy testing and counseling, annual gynecological exams, breast exams, Pap tests, and sexually transmitted infection testing and treatment. Services under this project are provided at our Springdale Health Center located at 290 Northland Blvd. Contact: Angie Fugat, email [afugate@ppsw.org](mailto:afugate@ppsw.org)
- **Hamilton County General Health District:** Maintenance of immunization registry; program description not available. Contact Mary Sacco, email [Mary.Sacco@Hamilton-co.org](mailto:Mary.Sacco@Hamilton-co.org)
- **The Health Care Connection:** Medical care for un/under insured women and children, including immunization service and prenatal care; program description not available. Contact Dolores Lindsay, email [doloresl@lhcc.org](mailto:doloresl@lhcc.org)
