EXHIBIT NO. 36

CERTIFICATION FOR THE DEVELOPMENT IN A FLOOD HAZARD AREA

This form should be completed by a professional surveyor and returned to the local flood plain administrator. The form can be used to serve two purposes. First, it can be used by the property owner to certify that the completed construction meets the flood elevation standards of the community. Secondly, this form can be used by insurance agents to complete the Elevation Certificate which they need to complete for insuring new construction in the flood plain. The community should keep the completed original on file and provide the property owner with a copy that he or she can furnish to the insurance agent.

In this manner the agent will not have to call upon community officials for assistance in determining the elevation data they require.

I, the undersigned, do hereby certify to the following elevation at the referenced property in compliance with the permit requirements of the Flood Damage Prevention Regulations for Unincorporated Hamilton County, Ohio (Volume 259, Image 5569-5584) effective September 27, 1995.

Location of property _____

Owner of property _____

Lowest floor elevation,
including basement _____ feet above msl.
(mean seal level)

Signature of Surveyor _____

Professional Seal

Date _____
