PARENTING EDUCATION CLASSES

The court recognizes that the conflict existing in a family as a result of divorce can have a negative impact on children. In **newly filed divorces, legal separations, annulments and dissolutions**, per Local Rule 2.9, all parents are required to attend a class to educate parents about the issues their children may encounter as a result of divorce. **Parents are responsible for providing to the Court a copy of their certificate of completion as proof of class attendance.**

Parents may complete one of two approved online classes.
